V1.0 - 241017

FÖRST ST6P

The ST6P is a genuine, hardy, performance tool; building on the Först reputation of jaw dropping performance and robust, tough construction.

At its core is the industry-renowned FörstGrip feed roller system and Först flywheel system, providing unmatched performance in processing various materials. The ST6P is powered by the highly efficient Vanguard 37hp V-Twin petrol engine, perfectly suited to the machine's capacity, making it both quick and extremely fuel-efficient thanks to electronic fuel injection (EFI) technology.

Focusing on quality and longevity, the ST6P shares the same chipping chamber, flywheel, feed roller system, and hopper as the larger ST6D model but features robust GRP panels, a shorter chassis, and a lighter petrol engine to keep it under the 750KG weight threshold
